Paige:

I would like to work together with you on this site. I would like to see if you could help me by drafting up the Action Memo based upon historic information. We are starting to get sampling information in and it will only confirm the areas that we need to address and primarily affect the cost estimate although we will probably have areas other than the old areas to clean up. I believe I have already given you the documents but let me know and I will send them to you again.

Thanks for the help,

Gary W. Moore (6SF-ER)
